W. C. T. U. CONVENE

Thirty-Fourth Annual Coavention at Nashville.

600 DELEGATES ON HAND

Convention Was Called to Order by Mrs. Lillian M. N. Stevens of Portland, Me., the President—Encourage Temperance Reports.

Nashville, Tenn., Nov. 9—At 9:30 o'clock Friday morning the thirty-fourth annual convention of the National Woman's Christian Temperance union was called to order in the First Presbyterian church, this city, by its president, Mrs. Lillian M. N. Stevens, of Portland, Me.

Between five and six hundred delegates were in their seats when the president rapped for order. They are here from every state in the union, several negro women being among the number.

The last W. C. T. U. convention held in Nashville was twenty years ago this month. After organization, the report of the executive committee and the appointment of committees, the president delivered her annual address.

Following the delivery of the president's address there was an evangelistic hour held, presided over by Miss Elizabeth W. Greenwood, national evangelistic superintendent.

The session Friday afternoon was devoted principally to the hearing of committee reports and reports of the corresponding secretary and treasurer. The two last reports were of a highly encouraging nature, and show the union to be in a flourishing condition.

After the reports were read "the royal temperance legion branch" was discussed by Miss Maraget Winnreger, of Illinois, the general secretary. Then followed ten-minute addresses by the various superintendents.

Several elaborate social functions have been planned by the ladies of the city in honor of the visiting W. C. T. U. delegates.

LITIGATION OVER ESTATE.

Decision Rendered in Orphans' Court at Philadelphia.

Philadelphia, Nov. 9—The orphans' court of this city has decided that Dr. Thomas W. Evans, the famous dentist who died in Paris several years ago and over whose estate there has been much litigation was a Parisian, and that the state of Pennsylvania has no right to collect the collateral inheritance tax on the property located in France.

The proceedings brought by register of wills, Mr. Irwin, raised the question of residence of the dentist and involved the collection of the 5 per cent state tax on upward of $1,000,000 of the $5,000,000.

Dr. Evans was originally a resident of Philadelphia and register Irwin contended that he had never announced his intention of permanently residing in Paris.

THE C. E. UNION.

Has Adjourned After a Most Delightful Session in North Gainesville.

The North Central Christian Endeavor Union met in session in North Gainesville hall November 7 and 8, 1907.

This district is composed of the five counties of Alachua, Levy, Columbia, Sewannee and Bradford. It is a large field, but as yet not well organized. All the societies in the district were represented except Campville. All the sessions were enthusiastic and very helpful, and were well attended. The delegates were most happily entertained by the North Gainesville Society.

State President Winnard of Tampa, and State Secretary Miss Grace Townsend of Interlachen, did most helpful service in the convention.

State President Winnard announced that, in accordance with plans decided upon at the State convention at Lake City last April, a handsome and costly banner was now being made in Tampa to be given to the district organizing the most new societies, this year, in proportion to the number of societies then in each district. The officers elected for the ensuing year are as follows:

President, Rev. M. G. Richard, Lake City; First Vice-President, Henry Ramsey, Gainesville; Second Vice-President, C. H. Ferran, Lake City; Third Vice-President, Mrs. S. Kirchain, Cedar Key; Treasurer, Miss Percie Fulks, Lake City; Lookout Committee, Miss Bruce, North Gainesville, Norman McRoy, Campville, Mrs. Ellzey, Cedar Key; Junior Superintendent, Mrs. F. P. Henderson, Gainesville.

Miss Emma Y. Hughes of Tioga, who could not be with us on account of sickness, was heartily and unanimously re-elected corresponding secretary.

DEATH OF MRS. DENNIS.

Highly Esteemed Lady of Gainesville Passed Away in Jacksonville.

From Friday's Daily Sun:

Friends learned with deep regret Thursday evening of the death of Mrs. A. M. Dennis, an estimable and highly esteemed lady of this city, which occurred suddenly at St. Luke's Hospital in Jacksonville late in the afternoon of Thursday. Her daughter, Miss Hattie, had been summoned to Jacksonville on account of her mother's illness. They have recently returned from an extended visit to points in the North, and upon their return home Mrs. Dennis, feeling ill, decided to remain at the hospital in Jacksonville.

The end was a sad and sudden one, and the family has the sympathy of the entire community.

THE CIRCUIT COURT.

Fall Term Will Open Monday—Docket Not as Heavy as Usual.

The fall term of the circuit court of the Eighth Judicial Circuit, in and for Alachua county, will convene in this city Monday, Judge Wills presiding.

There are a great many cases on the docket to be disposed of, among which is the celebrated Strobhar case, with which the entire state is familiar. The list of criminal cases, however, is slightly diminished, the docket having been almost cleared at the last session of the court, this decreasing in a large measure cases which have, for years, in some instances been carried over from term to term. The civil docket is large, however, and it is expected that the court will be in session as usual for two or three weeks. The spring session of the present year was one of the largest ever known in this county, occupying a month.

Number of People Killed and Injured In One Year.

Washington, D. C., Nov. 9—The interstate commerce commission bulletin on accidents on the railways of the United States during the year ended June 30, shows total casualties 81,286, or 5,600 killed and 76,000 injured, an increase of 10,352 casualties, or 775 in the killed and 9,577 in the injured, as compared with the previous year. The figures include only accidents to passengers and to employees while actually on duty or about the trains.

The bulletin says that there have been heavy increases in all items except in car coupling and from striking against overhead obstructions. The number of passengers killed and injured in collisions and derailment has increased to an alarming degree. In this item the very large total reported in 1895 is now exceeded by 17 per cent.

The report for the last quarter included in these figures for the year embracing April, May and June, shows 1,065 persons killed and 18,646 injured, 1,806 collisions and 1,971 derailments, involving $3,232,673 damage to trains and roadway.

RUSSIA TAKES IT SERIOUSLY.

Believes United States and Japan Will Come to Hostilities.

St. Petersburg, Nov. 9—The talk of the possibility of a war between the United States and Japan, which throughout has been taken seriously in Russia, is arousing many volunteers to the American embassy who say they are anxious to serve in the United States army in case of hostilities.

A report is also circulating in military circles here that the American army in the Philippines needs instructors, especially for the artillery and engineer corps. Five or six Russian officers of these branches of the service apply daily at the embassy for commissions and are disappointed by the assurances that there is no likelihood of Japan and the United States going to war.

EXTRA SESSION OF THE LEGISLATURE

Hon. R. Pope Reese Believes That One Will Be Called.

THINKS THAT SUCH ACTION

Is Necessary So As to Pass Some Revenue Bills, As Appropriations Exceed the Income of the State for the Year.

[Pensacola Journal.]

Hon. R. Pope Reese, the Escambia member of the special commission to investigate into the acts of the trustees of the Internal Improvement Fund, returned yesterday morning from Tallahassee, where he had been for the past three weeks. The commission has completed its labors, and the report, which will cover about 100 typewritten pages, is in the hands of Chairman Syd L. Carter, who will have it typewritten.

Speaking to a Journal representative yesterday afternoon relative to an extra session of the Legislature, he gave it as the consensus of opinion that an extra session will be called. "I think an extra session of the Legislature will be, and ought to be, called by the Governor," said Mr. Reese. "It is necessary, in my opinion, in view of the condition of the State finances, brought about by appropriations for special purposes as well as for appropriations for carrying on the State government, maintaining hospitals, asylums, schools, etc., which appropriations are more than the State's income will be. It will therefore be necessary to pass some new revenue bills, and it is also necessary to pass a re-apportionment act, which should have been done by the last Legislature. The report of the commission that has been investigating the acts of the I. I. Fund trustees should also be received by the Legislature which created it."

In speaking of the call for an extra session, and his belief that the Governor will issue a call, Mr. Reese stated that he does not do so with any official knowledge that such will be done.

The I. I. F. Report.

"The report of the commission of which I was a member," continued Mr. Reese, "will be as complete as is possible for such a report to be made. The closest study and attention has been given to the acts and doings of the trustees of the I. I. Fund from 1855, when it was created, and we spent more than three months at this work, and the past two weeks we worked night and day.

"In formulating this report, the commission received invaluable assistance from Chairman Syd L. Carter of Gainesville, whose knowledge of the political history of Florida enabled the commission to obtain information it could not gain from those who were summoned and who testified during the investigation.

"The report is to be later signed by the members and submitted to the Legislature in either special session or in 1909. It covers 100 pages, and the testimony heard covers about 700 pages, in addition to many exhibits. Every living member and ex-member of the board of trustees was examined with the exception of E. J. Triay, at one time State treasurer, and his testimony was made not necessary by reason of the testimony of Congressman W. B. Lamar, and Ex-Governor Bloxham. The latter was the last to appear before the board, and with his testimony the investigation came to a close."

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashley street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

THE NEW MASONIC TEMPLE.

Plans Now Being Arranged, and Work Will Probably Begin Soon.

The long-talked-of Masonic Temple for Gainesville is about to become the real thing, and the probability is that within the next few weeks actual work will begin on this magnificent structure, which is to cost between $17,000 and $20,000. Contractor S. H. Dempsey is now at work on the plans, which will be submitted in a short time, when it is believed that the contract will be let and work will begin.

Judging from the photograph of the proposed building, which will be a duplicate of a temple in California, it will be when completed one of the most magnificent buildings in this section of the country. The structure will be 100 feet front by sixty-six feet deep, two stories in heighth, and the material to be employed will be stone, brick and iron. The lodge-room will be located on the second floor, and will be 40x60, with a twenty-foot ceiling.

The new building will be located on the northwest corner of the block on West Main street N. and East Court street, purchased some time ago from the Episcopal church by the Masons. The structure will face on West Main street, and will be a credit to that section of the city.

MAKES LIFE MISERABLE.

Troubles That Keep Half the Gainesville Doctors Busy.

Half of the prescriptions the Gainesville doctors write are for troubles that result directly from a weakened stomach. Strengthen the stomach muscles, increase the secretion of gastric juices, and you will find that common afflictions—indigestion, with its headaches, dizziness, depression of spirits, spots before the eyes, nervousness, sleeplessness and general debility—have been overcome.

From now on build up the strength and health of the stomach with Mi-o-na tablets. You will soon find yourself strong and never know the meaning of indigestion.

If Mi-o-na did not have an unusually curative effect in stomach disorders, it could not be sold on the guarantee given by J. W. McCollum & Co. to refund the money unless it does all that is claimed for it. They give an absolute, unqualified guarantee with every 50-cent box of Mi-o-na that the money will be refunded unless the medicine cures. They take the whole risk and you certainly can afford to try Mi-o-na from them on this plan.

HUSTLING NEWBERRY IN NEW CLOTHES

Wonderful Progress Made in That Town Since the Recent Fire.

THE BUILDINGS ARE HANDSOME

The Energetic Citizens of That Place Put Their Shoulders to the Wheel and All Pull Together, With Most Gratifying Results.

Newberry, November 8.—Newberry, whose principal business street was almost completely destroyed by fire last May, has risen again like a phenix, from its ashes to more than its former importance.

Such rapid improvements arise when wide-awake, enterprising citizens realize a situation, grasp it and are determined to eclipse their former efforts.

In the row of new brick and concrete business houses built for Messrs. H. A. Pickett, Ruff, Howell, and Mrs. Lillie Kitchen, we find an up-to-date restaurant, millinery store and other large stores that would be an improvement on some city ones we have seen. A former dwelling of Dr. Ruff, now owned by Mrs. Densler, has been remodeled and enlarged into a boarding house.

John White has erected a neat residence since the fire, and is having it enlarged, while several others are in process of erection for Drs. Ruff and Getzen, and a concrete building for Mr. Tucker, one of our leading grocers. Others contemplate building in the near future.

Anyone seeing Newberry less than a year ago, upon beholding it now, would testify to the fact that the last five months have wrought a big improvement.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by W. M. Johnson.

THE STORK AT DUTTON.

Visited Home of Mr. and Mrs. Gilbert, Leaving a Fine Girl.

Island Grove, Nov. 8.—The angel of life visited the home of Mr. and Mrs. C. W. Gilbert, Dutton, on November 2, and transplanted there a beautiful flower in the form of a fine baby girl. It will be remembered that the angel of death visited their home in May last and snatched away little Winburn, their only child—a fine little boy of twenty months. Friends sympathized with them in their bereavement, and they now rejoice with them over the birth of their little daughter.

While we know that their hearts will always mourn for little Winburn, still we know that this little life brings with it much sunshine and gladness to that grief-stricken home. Their darling boy's "safe in the arms of Jesus," but we hope this little one will be spared to a mother's arms for many years to come. A FRIEND.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. J. W. McCollum & Co.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

If Old Sores would yield to outside influences, or if they could be healed strictly to the diseased flesh around the ulcer, then external applications, simple cleanliness and cure clean. But the trouble is in the blood, which has become unhealthy and diseased, and keeps the sore open by discharging into it the impurities and poisons with which the blood is filled. This poisonous condition of the blood may be the result of a constitutional trouble; the effect of a long spell of sickness, or it may be the natural refuse of the body, which should pass off through the pores, but which has been left in the system and absorbed into the blood. A sore of this kind may be hereditary; but it does not matter how the poison becomes established in the blood, the fact that the sore will not heal is evidence of an impure and poisoning cause. Salves, washes, lotions, etc., may cause the place to heal temporarily, but the blood is not made purer by such treatment, and soon inflammation and discharge will appear, and the sore be as bad or worse than before. S. S. S. goes down to the very bottom of the trouble, cleanses and purifies the blood, and makes a permanent cure. S. S. S. builds up and freshens the circulation so that instead of discharging unhealthy matter into the place, it carries rich, tissue-building, flesh-healing blood to the diseased parts and in every way assists in the perfect cure of the sore. A Prominent Road Man.

J. H. Wylie of Interlachen passed through the city Thursday en route to Jacksonville, where he goes in the interest of some road-building material in Putnam county, near his home, and from which the Palatka-Interlachen road is now being constructed.

Mr. Wylie states that this material, which is a mixture of clay and gravel of exactly the natural consistency, abounds in the vicinity of his home and throughout West Putnam in unlimited quantities, and that a test has proved it to be among the best road building material in the South. He is very enthusiastic and will present the matter before the County Commissioners of Alachua county within the next few days.

Mr. Wylie is one of the most enthusiastic good-roads advocates in this section of the State.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all druggists.

Some Fine Sugar Cane.

W. R. L. Howard, who owns and cultivates a fertile farm about eight miles west of Gainesville, was in the city Thursday, and brought a stalk of sugar cane containing nineteen joints, which is no doubt the largest stalk of not only this county, but this section of the State.

This sugar cane was raised on natural soil, being aided by no fertilizer, and is a fair sample of the growth of the crop. Mr. Howard holds the ribbon as the champion cane-grower of Central Florida, his products having been awarded first prize at the Florida State Fair in Tampa two years ago.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elwyn, N. Y. writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50-cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease. J. W. McCollum & Co.

THE NEWS FROM MELROSE.

Melrose, Nov. 7.—One of the International postage coupons was received here from England recently. They will prove very convenient to serve replies in correspondence with foreign countries.

Mrs. W. S. M. Caldwell has returned from her annual visit to Springfield, Mass.

C. Yearwood left Monday to enter the Atlanta Dental College.

Melrose Lodge No. 39, F. & A. M., resumed their monthly sessions on Saturday, after the usual summer recess. This lodge is in a very flourishing condition, and expects to add several new members shortly.

The tax books of the town for 1907 are now open at S. Coward's store.

It will no doubt be interesting to our citizens to hear that on November 2 a memorial chapel was dedicated to the memory of Dr. B. B. Tuttle at Ansonia, Conn. Dr. Tuttle was a regular winter visitor to Melrose for a number of years, and his memory is held in the kindest regards by his friends here. Judging from the photograph the chapel is a very beautiful building.

JOLLY HUNTING PARTY.

Gainesville Trio Goes to Lafayette County in Search of Big Game.

From Friday's Daily Sun:

About as jolly a trio as ever left Gainesville on a hunting trip were Dr. E. Lartigue, Dr. Gordon B. Tison and B. M. Tench, who "departed" Thursday morning for the Suwannee river valley and points in the Lafayette county hammocks where bear and deer are reported to be numerous.

The party went well equipped. They were conveyed in a big two horse wagon, and were well equipped with camping paraphernalia and plenty of the good things which go to make a camping expedition a success. They expect to take their time en route and may not reach the Suwannee, a distance of about forty miles, within the next three or four days, as they will spend some time shooting along the way.

The party left Gainesville in high spirits, and with the anticipation of finding some big game in the Lafayette county hammocks.

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

Death of W. G. Lewis.

Information has been received in this city of the death of W. G. Lewis, which occurred in Texas a short time ago. Deceased was a brother of Mrs. J. P. P. Johnston, and was well known here among the older set, as he was a pioneer citizen of Gainesville. Friends will be surprised to learn of his demise, and will extend sympathy to the bereaved sister.

Oklahoma's new constitution appears to have been adopted, according to official figures, by 108,000 majority. This goes to show Mr. Taft how military people can be some times.

Tammany Hall will continue to dispense the spoils of office" in New York City. The "Tiger" evidently has the "boys" with his eyes on election day, and Willie the kid-glove Republicans.

The majority in Monroe is certainly enough to please the saloon men. If they are on a par with Monroe they may just as well leave Florida, or go out of business.

Gen. George Washington, president of the United States, is suing suit in their city of Cincinnati, several adjacent property question was before Congress at the time against Great Britain for his services, which accepted the crown his patent.

State Superintendent of Public Instruction, always alive to the interest of the State, has just apportioned for educational purposes a handsome sum of the money in the financial country is now entitled to many times as much as at present. Immediate action is almost certain and will not fail to call for his diligence that Alachua will get this apportionment—$4,429.35—of which will be sent to County Treasurer Kelley.

THE DANGER OF IDLENESS.

When one notes the presence of so many idle youths loafing about the street corners at all hours of the day and night, with no object in view for the guidance of their future destinies, it is no wonder that the jails and convict camps are so full of youthful prisoners. This state of affairs exists not only in Gainesville and in Florida, but in these "modern" times the practice seems general. It is a deplorable fact that a great many parents do not manifest the proper surveillance over their children, permitting them to run at large, like cattle, going and doing at their pleasure. Some day some of these boys are going to prove as thorns in the hearts of those who have been responsible for them during childhood—but then it will be too late.

Statistics show that two-thirds of the convicts in America's prisons are men without trade or profession. A glance into any of the convict camps of this State, it is said, will show that at least one-third the convicts confined therein are young men, and that the majority of them are nothing more than graduates of street-corner loitering, with no knowledge of a trade whatever.

It is also interesting to state that comparatively few of the younger criminals are illiterate. There is proportionately only a few who cannot read and write; but almost without exception it is noted that the youthful class of criminals are young men who have not applied themselves to useful, honest work.

It is a duty the parent owes his boy to train him in a life of usefulness, instead of incouraging idleness, which in many instances will bring about nothing but destruction.

COTTON BULLETIN.

The Bureau of the Census has just published Bulletin 90, which contains a report on the supply and distribution of cotton in the United States for the year ending August 31, 1907. The bulletin also includes the latest available data in respect to the number of cotton spindles and to the consumption of cotton in other important manufacturing countries, together with statistics of imports and exports of raw cotton and its manufactures for selected countries. This report was prepared under the supervision of William M. Steuart, chief statistician for manufactures, by Daniel C. Roper, expert special agent.

The supply of cotton for the year ending August 31, 1907, according to the Census bulletin, was 15,025,720 bales of 500 pounds each. To this number the cotton crop of 1906 contributed 12,897,714 bales and that of 1907 contributed 266,278 bales; stocks held on September 1, 1906, amounted to 1,349,139 bales and the imports of foreign cotton to 262,733 bales.

Of this supply 4,984,336 bales were consumed by manufacturers, 22,952 were burned, and 8,503,265 were exported, leaving 1,514,567 bales in stock at the end of the year. Manufacturers in the cotton-growing States consumed 2,419,993 bales, which was slightly less than the amount consumed by the manufacturers in all the other States, 2,573,343 bales.

The State of Florida paid out in pensions to Confederate veterans and the widows of veterans $98,094.08 during the month of October. This exceeded any previous month by about $22,000. Several thousands of dollars remain yet to be paid before the end of the quarter. Some thousands of applications still await the consideration of the pension board. This board consists of the Governor, the Comptroller and the Treasurer. It is allowed the munificent sum of $500 for clerk hire—that is, less than $10 a week. This will give an idea, both of the amount of the money Florida must expend under this most liberal law, and of the amount of work incumbent upon at least two members of that board, who are besides, members of several other State boards. Consider also the many letters of complaint and criticism they most probably receive.—Jacksonville Times-Union.

General Abe Sawyer of Key West, the smallest man physically in the United States, has returned from the Jamestown Exposition. He says General Albert W. Gilchrist of Punta Gorda will be the next Governor of Florida. If other candidates do not enter the race it is not unlikely that General Sawyer's prediction will prove correct.

SCHOOL APPORTIONMENT.

Hon. W. M. Holloway, State Superintendent of Public Instruction, has just made the semi-annual apportionment of the one-mill tax which is the largest apportionment in the history of this fund. The amount for apportionment was $86,814.23, and the amount apportioned was $86,059.55. This apportionment is based on the average attendance of pupils in the public schools of the State, which, for the scholastic year of 1906 and 1907, was 90,599. The rate per pupil was 95 cents. The amount remaining in the fund not appropriated is $754.68.

Says Many Persons Here Can Be Made Happy Again By Using This.

There is so much rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Karagon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple receipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and drain from the blood and system the poisons, acids and waste matter, which cause not only Rehumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

A Washington correspondent says all Washington is in mourning and she invites the Nation to mourn with her. The old historic Baltimore and Ohio depot at the intersection of New Jersey Avenue and C street has ceased to be. Everything in the old station that was portable has been removed to the new terminal station and silent and deserted are the old familiar passages. For nearly three-quarters of a century has the old station served as a welcome shelter for strangers; during the days of the civil war its walls echoed the tramp of armed feet, the glad greetings of friends and family, the moans and cries of the wounded brought to the city. A place of historic interest with its quaint low walls and ugly pillars, its antiquated clock, it is doomed to immediate demolition by the unsentimental locals of the wreckers. The grand new terminal station, with all its beauty, does not have such a hold on the hearts of millions of people as does the old landmark that is so soon to go to oblivion.

The Tampa Evening News tells more than half a truth in the following: "Robert McClannon gives a good reason for the extents and strength of the prohibition movement at Key West. For years the saloons there have been run without regard to law or proper restrictions. Nearly all of them had low-house attachments and their business was carried on in a way calculated to make them obnoxious to common decency. The strength of the anti-liquor element should read the saloonists of Key West a lesson. In Tampa where the saloons are now strictly regulated and kept within the pale of observance of the law, such a general antipathy to them does not exist. The law-breaking, law-defying saloon is itself the cause of nine-tenths of the prohibition agitation which has arisen throughout the South."

"WHY do I take Cardui"? writes Mrs. Jelemma Mullins of Odessa, W. Va. "Because, after suffering for several years with female trouble, and trying different doctors and medicines without obtaining relief, I at last found, in Wine of Cardui, a golden medicine for all my ills, and can recommend it above all others for female complaints."

Cardui furnishes safe relief for backache, headache, periodical pains, irregular, painful or unhealthy catamenial flow, and all ailments from which sick women suffer. T. & J. SCHEDULE HARD TO SWALLOW

Proposed Change Will Prove of Inconvenience to Traveling Public.

THE BEST TRAIN ANNULLED

Train Leaving Gainesville at 6 O'Clock in the Morning, and Which Has Been Well Patronized, Will Be Taken Off—Schedule South a Bad One.

There is to be a change in schedule of the Tampa and Jacksonville railroad, formerly the Gainesville and Gulf, which it is believed will prove anything but satisfactory to the public, as the train which has been leaving Gainesville for Sampson City at 6 o'clock a. m., connecting with the Georgia Southern for all points North and South, will be annulled. This is considered by the traveling public, especially commercial men, as the best train in the service, as it enables them to work the territory to much better advantage. This train has been well patronized by this class, who will be very badly inconvenienced, it is said, by the action of the Tampa and Jacksonville management in taking it off. It is hoped the arrangement is only temporary.

The only train for the North after the inauguration of this schedule will leave Gainesville at 6 o'clock p. m., returning at 9:20 p. m.

The schedule to and from the South works also very disadvantageously to the people, as well as detrimental to the commercial interests of the city. The train will leave Gainesville for Micanopy, Fairfield and intermediate points at 10:30 a. m., returning to Gainesville at 4:25 p. m. By this arrangement the people from the South who desire the opportunity to come to the city trading are unable to do so, unless they remain over night, at considerable inconvenience and expense. This schedule South has been in effect for some time, and has always proved unsatisfactory to the majority of the patrons of the road.

SUNDAY SCHOOL CONVENTION.

District Convention Held With Hopewell Church in North Gainesville.

Editor Sun: Please allow us to report the work of the District Sunday School Convention, North Division of the Jerusalem Baptist Association, which met with the Hopewell church, North Gainesville, Friday, Nov. 1.

Rev. R. W. Lawrence, general superintendent of Sunday schools of said convention, presided throughout the sessions with credit to himself and the convention.

Mrs. Jennie E. Rowe, representative of the Mt. Carmel Sunday school, was elected secretary, and took record of all proceedings. Several Sunday schools reported by letter and delegate, which was very gratifying to the president.

The good people of Hopewell did all in their power to make our stay in their midst one of pleasure and comfort. They were a unit in their endeavors, which told from the start that success was ours.

Following were some of the Sunday schools that reported: Ft. Clarke, Hopewell, Mt. Carmel, Philadelphia, St. Luke, Mt. Moriah and others.

Notice of time and place of next meeting will be given later. We had an all-round grand success.

Yours for Christ,
R. W. LAWRENCE, Gen. Supt.
MRS. J. E. ROWE, Sec'y.

REPUBLICAN TARIFF CAUSE OF PANIC

Such is Opinion of Washington Correspondent.

TREASURY IS SHORT OF FUNDS

Has Issued Call for Return from Disbursing Officers of Part of Funds to Their Credit—Some Interesting Figures.

Special Correspondence The Daily Sun.

Washington, D. C., Nov. 8.—In spite of the declaration of the last Republican National Convention that a Republican tariff has always been followed by business prosperity, and similar fallacious boasts of President Roosevelt in his letter of acceptance and speeches an unfortunate panic is playing havoc in our financial affairs. Nothing else is being talked about in political circles. Secretary Cortelyou declares the worst of the storm is over but the news from the West would indicate the worst may yet be to come. The closing of the chief stock exchange of the country at high and the paralysis of the market in Chicago and elsewhere, in consequence of the lack of money, and the determination of the banks to hoard their resources is anything but a cheerful prospect. The farmers will, of course, suffer, and wheat, cotton and other agricultural products have already fallen in price. Those farmers who are able to hold their crops until the panic subsides should by all means do so, for the demand from foreign countries will lead to higher prices for wheat and cotton next spring, if not before. This evidence how produced, that the Republican policies of a high trust-protective tariff and of giving every advantage to the banks, have built up a boom prosperity that at the first adverse wind is no more stable than the child's house of cards, is proof that Republican policies produce panic instead of being panic-proof as brazenly boasted. With fifty per cent more money per capita in circulation, and the supply constantly increasing, the banks are unable to pay their debts when called upon. The Republican policy of aiding the Wall Street banks with all the spare money in the treasury, except a few millions to pay the current demands upon the Government, is not only unlawful, but grossly unfair to the more conservative bankers of the South and West who have to bear the burden of moving the funds to move the crops. The only excuse for President Roosevelt in carrying out this policy is that he has taken the advice of those mixed up in the Wall Street gang, or has allowed his New York birth and training to lend him to be a tool of the frenzied financiers rather than ordering a "square deal between all sections. This subservience to the Wall Street interests is shown by his effusive thanks to Rockefeller and the not hidden approval of Rockefeller for putting up money to try and stem the panic these financiers developed. The Chief Magistrate of the country is at once seen that they demanded their money, which extended to 50 per cent hardly be called a public who charges his fellow citizens usury, under the circumstances. The Rockefeller call at 6 per cent can to be a fable, as far as interest is concerned. If the public could be convinced that there would be no more Wall Street panics, there would be a speedy end to the present unfortunate panic. Unfortunately, however, the Republican party, which has now suffered from the unsettled conditions of affairs in New York money centers, has proved that the banks in the money centers are not as well prepared with cash as the banks in other sections of the country. Even the Secretary of the Treasury has found it necessary to issue calls for the return to the disbursing agents of the Treasury for $15,000,000 of funds to their credit which may be added to the deposits in the United States banks. The official statement of the cash balance in the Treasury at the close of business on October 29th, is given as $224,881,349. But these figures are very deceiving, for of that amount $215,529,538 has already been loaned to the banks and far from being an "available cash balance" it might as well be at the bottom of the sea as far as any immediate availability to the United States Treasury is concerned. To demand its return would cause nearly every bank that holds such deposits to close their doors. Another item is $5,064,751 on deposits in the Philippines, that is certainly not available; then there is given $3,232,659 of silver bullion, that cannot be used as money until coined, then there is $6,954,330 of subsidiary silver, and $1,551,678 of minor coin, neither of which items can be classed as available cash, for only $10 is legal tender. All these amounts added together makes $232,332,776. So that the United States Treasury instead of having an available balance, there is a deficiency of $7,451,436. That is the Secretary of the Treasury, with the approval of President Roosevelt, must have taken $7,451,436 from the trust funds in the Treasury, or from the "gold reserve," to deposit in the Wall Street banks in their great necessities. No wonder Secretary Cortelyou is at his wits' ends and is calling upon the Government disbursing officers to return part of the money to their credit. But returning to the Treasury about $15,000,000 of such balance is robbing Peter to pay Paul, for it will take it out of the national banks, which are Government reserve depositories in the different large cities of the country either to pour it into the Wall Street maelstrom or to deposit it with other favored banks who are in a tight place. The fact is, the treasury is bankrupt to all intents and purposes; and existing conditions are similar to those under President Cleveland was obliged to issue bonds in 1894. The Republican party has had no question to contend with of the double standard. The high tariff taxation has resulted in a large surplus in the Treasury, instead of a deficiency, which President Cleveland had to contend with under the McKinley tariff law, and in consequence of the supreme court declaring the income tax section of the Wilson tariff law unconstitutional. The Republican leaders have deliberately forced part of the [illegible] banks not only the surplus, but over seven millions more from other sources, that panic has discouraged even the most optimistic Republicans, as they feel that no Republican would as likely to be nominated and be elected, for all are committed to the present tariff policy that has caused the panic. In speaking of this present Republican call to put a stop to hoarding Wall Street gang will gain [illegible] financial legislation to the front as an issue, it will eliminate Mr. Fairbanks as your candidate here in the business world has no confidence in him on financial affairs.

Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney diseases. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who often *treat the symptoms with doctoring the effects*, while the original disease undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.
